Printing date 25.03.2014

Revision: 25.03.2024

1 Identification of the substance/mixture and of the company/undertaking
· 1.1 Product identifier
· Trade name: <u>PINK STUFF</u>
 Article number: 58128 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.
Application of the substance / the mixture Detergents
 • 1.3 Details of the supplier of the Safety Data Sheet • Manufacturer/Supplier: Highside Chemicals, Inc. 11114 Reichold Road Gulfport, MS 39503 USA Phone: (228) 896-9220
• 1.4 Emergency telephone number: ChemTel Inc. (800)255-3924, +1 (813)248-0585
2 Hazards identification
 2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008
corrosion
Skin Corr. 1B H314 Causes severe skin burns and eye damage.
Classification according to Directive 67/548/EEC or Directive 1999/45/EC C; Corrosive
R34: Causes burns.
Xn; Harmful
 R22: Harmful if swallowed. Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Classification system: The classification is according to the latest editions of the EU-lists, and extended by company and literature data. The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.
• 2.2 Label elements
Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. (Contd. on page 2)

Printing date 25.03.2014

Revision: 25.03.2024

Printing date 25.03.2014

Revision: 25.03.2024

(Contd. of page 2)

Trade name: PINK STUFF

· **vPvB:** Not applicable.

3 Composition/information on ingredients

- · 3.2 Mixtures
- Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:		
CAS: 7664-38-2	phosphoric acid	25-50%
EINECS: 231-633-2	🛃 C R34	
Index number: 015-011-00-6	📀 Skin Corr. 1B, H314	
CAS: 1341-49-7	ammonium bifluoride	< 3%
EINECS: 215-676-4	🌄 T R25; 🛃 C R34	
Index number: 009-009-00-4	🛞 Acute Tox. 3, H301	
	left Skin Corr. 1B, H314	
• Additional information: For the wording of the listed risk phrases refer to section 16.		

4 First aid measures

· 4.1 Description of first aid measures · General information: Immediately remove any clothing soiled by the product. Involve doctor immediately. Symptoms, including pain, following any exposure may be delayed by as much as 24 hours. · After inhalation: Supply fresh air; consult doctor in case of complaints. Supply fresh air or oxygen; call for doctor. · After skin contact: Immediately rinse with water. Seek immediate medical advice. Seek immediate medical help for blistering or open wounds. · After eye contact: Remove contact lenses if worn, if possible. Rinse opened eye for several minutes under running water. Then consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. · 4.2 Most important symptoms and effects, both acute and delayed Strong caustic effect on skin and mucous membranes. Gastric or intestinal disorders. Breathing difficulty · Hazards Danger of gastric perforation. Danger of severe eve injury. Danger of impaired breathing. Danger of disturbed cardiac rhythm. Danger of circulatory collapse.

(Contd. of page 3)

Trade name: PINK STUFF

· 4.3 Indication of any immediate medical attention and special treatment needed

Contains soluble fluoride. Consult literature for specific antidotes. If necessary oxygen respiration treatment.

Monitor circulation, possible shock treatment.

Medical supervision for at least 48 hours.

5 Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- · For safety reasons unsuitable extinguishing agents: None.
- \cdot 5.2 Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- · 5.3 Advice for firefighters
- · Protective equipment:
- Wear self-contained respiratory protective device.
- Wear fully protective suit.
- · Additional information No further relevant information available.

6 Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures
 Use respiratory protective device against the effects of fumes/dust/aerosol.
 Wear protective equipment. Keep unprotected persons away.
 Ensure adequate ventilation
 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
 6.3 Methods and material for containment and cleaning up:
 Use neutralizing agent.
- Water + calcium oxide or calcium carbonate. Pick up mechanically. Dispose contaminated material as waste according to item 13. • 6.4 Reference to other sections
- See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

\cdot 7.1 Precautions for safe handling

- Use only in well ventilated areas.
- Prevent formation of aerosols.
- Avoid splashes or spray in enclosed areas.
- · Information about fire and explosion protection: Keep respiratory protective device available.

Trade name: PINK STUFF

	(Contd. of page 4)
· 7.2 Conditions for safe storage, including any incompatibilities	
· Storage:	
· Requirements to be met by storerooms and receptacles:	
Store only in the original receptacle.	
Avoid storage near extreme heat, ignition sources or open flame.	
 Information about storage in one common storage facility: 	
Store away from foodstuffs.	
Do not store together with alkalis (caustic solutions).	
Store away from metals.	
Further information about storage conditions:	
Store in cool, dry conditions in well sealed receptacles.	
Store receptacle in a well ventilated area.	
7.3 Specific end use(s) No further relevant information available.	

8 Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see item 7.

· 8.1 Control parameters

· Ingredients	with limit values that require monitoring at the workplace:	
7664-38-2 phosphoric acid		
IOELV (EU)	Short-term value: 2 mg/m ³ Long-term value: 1 mg/m ³	
PEL (USA)	Long-term value: 1 mg/m ³	
REL (USA)	Short-term value: 3 mg/m ³ Long-term value: 1 mg/m ³	
TLV (USA)	Short-term value: 3 mg/m ³ Long-term value: 1 mg/m ³	
EL (Canada)	Short-term value: 3 mg/m ³ Long-term value: 1 mg/m ³	
EV (Canada)	Short-term value: 3 mg/m ³ Long-term value: 1 mg/m ³	
• PNECs No fu	rther relevant information available. Irther relevant information available. I formation: The lists valid during the making were used as basis.	
· 8.2 Exposure · Personal pro	e controls otective equipment:	

 General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

· Respiratory protection:

Not required under normal conditions of use.

Revision: 25.03.2024

(Contd. on page 7)

Printing date 25.03.2014 Trade name: PINK STUFF (Contd. of page 5) Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable. Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. · Material of gloves Fluorocarbon rubber (Viton) The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. · Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. · Eve protection: Contact lenses should not be worn. Safety glasses · Body protection: Acid resistant protective clothing · Limitation and supervision of exposure into the environment No further relevant information available. · Risk management measures See Section 7 for additional information. No further relevant information available. 9 Physical and chemical properties · 9.1 Information on basic physical and chemical properties · General Information · Appearance: Form: Liquid Colour: Pink · Odour: Pungent · Odour threshold: Not determined. · pH-value: Not determined.

Not Determined.

10 Stability and reactivity

- · 10.1 Reactivity
- · 10.2 Chemical stability
- · Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- 10.3 Possibility of hazardous reactions
- Toxic fumes may be released if heated above the decomposition point.
- Reacts with strong mineral acids forming hydrogen fluoride.
- Reacts with strong alkali.
- Reacts with base metals forming hydrogen.
- · 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- · 10.6 Hazardous decomposition products:
- Phosphorus compounds Nitrogen oxides (NOx)

Hydrogen fluoride

11 Toxicological information

- · 11.1 Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: Caustic effect on skin and mucous membranes.
- · on the eye: Strong caustic effect.
- · Sensitization: No sensitizing effects known.
- · Subacute to chronic toxicity: Toxic and/or corrosive effects may be delayed up to 24 hours.
- Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

- Harmful
- Corrosive

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

12 Ecological information

- · 12.1 Toxicity
- Aquatic toxicity: No further relevant information available.
- **12.2 Persistence and degradability** No further relevant information available.
- · 12.3 Bioaccumulative potential No further relevant information available.
- **12.4 Mobility in soil** No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Must not reach sewage water or drainage ditch undiluted or unneutralized.

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

- 12.5 Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

(Contd. of page 8)

13 Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

Dilute concentrate with water and neutralize afterwards with suitable alkali material (sodium hydroxide solution, lime). The formed neutral salts are relatively environment-friendly.

. . . .

• Recommendation: Disposal must be made according to official regulations.

· Recommended cleansing agents: Water, if necessary together with cleansing agents.

14 Transport Information
